| TYPE OF PLAN SHORT TERM, FOR ONE PERMIT YEAR | COMPANY NAME |
|--|--------------------------------------|
| (CHECK ONE): V LONG TERM, FOR PERIOD THROUGH DATE: 7/25/2009 | Lake Ozark Sand & Gravel, Inc. |
| DESCRIPTION OF STREAM CONDITION PRIOR TO LAND RECLAMATION COMMISSION | ON PERMITTING (BY APPLICANT OR PRIOR |
| OPERATOR) INCLUDING RANK CONDITION, BANK VEGETATION AND WATER QUALIT | Υ. |

The sand and gravel removal area includes one gravel bar north of Highway C in Deane Creek, one gravel bar south of Highway C in Deane Creek, and one gravel bar southeast of Highway C in Rollins Creek. Both creeks are bordered by pasture and woodlands. The banks are moderate to low slope but well vegetated. Water quality in the creeks is good. The exposed portion of the gravel bars to be mined is loosely packed and contains little annual vegetation. There is already an access road to the gravel bars.

DESCRIBE METHODS TO RESTRICT DAMAGE TO STREAM BANKS OR STREAM BANK VEGETATION.

Excavations between the stream banks will be managed such that water flow is not redirected toward the stream banks. An undisturbed buffer of 20' will be maintained between the gravel removal areas and the permanent bank vegetation where the stream bed is greater than 50' wide. Where the stream bed is less than 50' wide, an undisturbed buffer of 5' - 15' will be maintained. In either case, there will be no damage to the permanent vegetation of the stream bank.

DESCRIBE METHODS USED TO MINIMIZE IMPACTS ON THE STREAM ENVIRONMENTS, CONFINING ACTIVE MINING OPERATIONS TO THE GRAVEL BARS RATHER THAN FLOWING WATER AND RESTRICTING HAUL ROADS THROUGH FLOWING WATER.

Gravel will be removed from the top of the gravel bar to a depth no deeper than the normal water level and gravel removal will be restricted to the exposed portions of the gravel bar. This will avoid causing erosion of the stream bank and channel at the mining site and upstream (head-cutting). If water is noticed in the tracks of our equipment, we will not remove gravel any deeper. Although access to the gravel bar already exists, we will access the gravel bar where no vehicles will cross in water.
